Mrs. Fred W. Foster gave a most enjoyable bridge party on Monday afternoon at her home at Whipple Barracks, complimentary to Mrs. Charles Stewart and Mrs. Ralph R. Glass, and charmingly entertained a few of their friends, all of whom were delighted with their hostesses and the afternoon's diversion. The dining room and parlor had been very prettily decorated with long-stemmed American beauty roses, while in the library were white chrysanthemums. After the serving of delicious refreshments prizes were given Mrs. Thomas G. Norris, a cut glass bon bon dish, for the high score, and Mrs. Edward A. Orders have been received for the Fifth Cavalry to go to Honolulu, where they will be stationed. During the five years that Troop I has been stationed at Whipple Barracks they have made many warm friends, all of whom regret that their stay cannot be five years longer. This move will take away Major and Mrs. Fred W. Foster, Captain and Mrs. Edward A. Sturges, Lieutenant and Mrs. William P. Wheatley, and Lieutenant C. S. Hoyt. They sail on January 5.

Monday Club.

The Monday Club held its regular meeting on Monday last. A letter from Mrs. May A. Fish, chairman of the educational committee of the Arizona Federation, was attentively listened to, and was referred to the educational committee of the club for consideration and action. Mrs. W. D. Baker, chairman of the Art Section, took the chair, and after a short talk on the subject of study, mentioned that Mrs. Hugo Richards had generously donated some books and pamphlets bearing upon the subject of study for the year. A paper prepared by Mrs. Geo. Ruffner, entitled "Character, His Time, and Before, in the Netherlands," was read by Mrs. J. L. Merritt, and followed by a short sketch, "Early Manners and Customs," prepared by Mrs. J. Stephens. An informal discussion ended the program.

The club will meet at the usual time next Monday, at which time a program will be carried out, "Civic Improvement" being the topic of discussion. It is to be hoped the interest in this meeting, and the subject, will be manifest by a large attendance, for it is of importance in a general way, and often too little emphasis is attached to a knowledge of the same. It is only by an intelligent exchange of ideas, and reports gathered from other sources, that our club will be enlightened on this all important subject.

The study of Civics has taken a permanent place in almost all women's clubs to such an extent that without any premeditated thought of "reform," its influence has stretched out—noticeably in the case of Los Angeles—and the "hand that rocks the cradle" sweeps the streets!

HAVE PROMISING PROSPECT.

Advices from Bouse are that Jake Schwab and Henry Schalmelster have located a promising group of eight claims eight miles north of that place. They left Prescott two months ago on an extended prospecting trip through the new copper country tributary to the Arizona and California railroad. They are very enthusiastic over their new discovery and are preparing to start a small force developing one of the claims in which some high grade gold and copper ore is now exposed.

COMMODORE IMPROVES.

F. M. Czarnowski, of the Southwestern Development Company, who stopped over here Wednesday night on his way home to Congress Junction from an outing on the coast says that the new shaft on the Commodore group is now down 300 feet.

He also states that the ore is improving in values with depth. He is confident that the property will be among the big producers of the Weaver district in the next two years. The Commodore group is located three miles east of Octave.
